The highest medical authority on foods, Sir James Crichton Browne, LL.D.—F.R.S. of London, gives the best reasons for eating more Quaker Oats

In an article published in the Youth's Companion of September 22nd, 1900, Dr. Browne, the great medical authority on foods, says, about brain and muscle building—

"There is one kind of food that seems to me of marked value as a food to the brain and to the whole body throughout childhood and adolescence (youth), and that is oatmeal.

"Oats are the most nutritious of all the cereals, being richer in fats, organic phosphorus and lecithins."

He says oatmeal is gaining ground with the well-to-do of Great Britain. He speaks of it as the mainstay of the Scottish laborer's diet and says it pro-

duces a big-boned, well-developed, mentally energetic race.

His experiments prove that good oatmeal such as Quaker Oats not only furnishes the best food for the human being, but eating it strengthens and enlarges the thyroid gland—this gland is intimately connected with the nourishing processes of the body.

In conclusion he says— "It seems probable therefore that the bulk and brawniness of the Northerners (meaning the Scotch) has been in some measure due to the stimulation of the thyroid gland by oatmeal porridge in childhood."

Because it is the best of all oat-meals.

The shape of a Sincerity Suit at the start is the shape on the day you stop wearing it. That's one of the big things our label pledges. Only stretching can spoil shape and we've shrunk out all the stretch before we make the cloth into clothing.

Sincerity Clothes

lapels are as flat and smooth next month as they are to-day at your dealer's. Sincerity Collars don't leave the neck; style stays in Sincerity trousers.

You may not find Sincerity Clothes in the first shop you pass but it'll pay you to pass on until you do find them. The Sincerity Style Book is free but that doesn't mean it isn't worth something. Filled with pictures of men's and young men's suits and overcoats.
