Newton is still confined to his home in Cody and his condition is not improved. He has been ill now for several weeks and it is a matter for deep regret that his condition shows no improvement. Mrs. S. C. Parks, Jr., entertained the Cody teachers now in town at a four course luncheon last Saturday at one o'clock. Following the luncheon the afternoon was spent in games and various other forms of amusement. The school entertainment last Friday night was one of the finest events of its kind ever given in Cody. Every number on the program is said to have been excellent and reflected great credit upon teachers and pupils alike. Wilfred Conger completes his school work as teacher of the Osborne school near Meeteetse early the coming month. According to the patrons of the school he has made a good record and they express a desire to retain his services for the next term. W. H. Andy Kieln is now recovering at his home in east Cody from a long seige of typhoid. He has been ill during the greater part of the past three months. Cody has ordered the new buttons for the Cody Club and they will be received ere long. The emblem, adopted unanimously by the club, is an embossed profile of the famous Colonel and proud will be the wearer of the same. When apprised of the action taken the Colonel agreed to furnish all the buttons needed by the club and in fulfillment of that promise has placed an order with an eastern manufacturer. A. J. Martin was one of a number of travelers from Cody who were forced to spend last Friday night at Basin. On account of the blockade at Pryor gap, it was impossible to get a train through. Mr. and Mrs. Deegan have lived in Meeteetse and Kirwin for the past few years and have made hosts of friends at both those places, also in Cody. Because of this it is with reluctance that our people note the fact of their contemplated removal to other fields. Mrs. Deegan is now in the city, the guest of Mrs. W. L. Simpson. Later she will be joined by Mr. Deegan and together they will visit with relatives in Red Lodge before going to the new home. Col. W. F. Cody and Mrs. L. E. Decker reached Cody Monday night, the Colonel from a business trip to New York city and other points in the east, and Mrs. Decker from Thermopolis where she had joined him in an over Sunday visit. The Colonel reports a pleasant trip, but found weather conditions in the east anything but agreeable. All through the east there is an unusual amount of snow and associated with it is extremely cold weather. Not until he was near Cody did he see bare ground and find balmy weather. As a result of his trip the Colonel is more firmly convinced than ever that the basin brand of weather beats them all and that it is the garden spot of the universe.
